

## Help Red Cross Society in Local Relief Work

### Need Acute For Local Relief--Many Need Shoes and Clothing

#### Coleman Red Cross Makes Appeal to Generous Instinct of Those Who Can Afford to Give

Coleman citizens have a duty to the less fortunate, those who through force of circumstances find themselves in need of help during the coming winter. Possibly those requiring help have in time past helped others. In such times as these, we might one ask himself, "Am I my brother's keeper?" and determine that he cannot ignore the appeal. There is the generous instinct in most human hearts which prompts them to give when they know the need is urgent and the appeal justified, and Coleman people will undoubtedly support the ladies of the Red Cross in their appeal for clothing, money, footwear or food.

No individual can remain happy whilst having all he needs for comfort, knows that his neighbor is in want. A dollar from everyone who can afford it, or even has to sacrifice some small pleasure, is but a trifle to give. If you can afford more, you cannot donate it to a better purpose than helping to alleviate want and distress among fellow citizens.

Do not ask or expect outside organizations to take care of our deserving needy if Coleman people are not prepared to employ their resources and money in showing ways in earnt.

Churches and fraternal organizations should urge on their members the necessity of the appeal, and give their active support. The local members of the Red Cross will administer the fund, and they are in a position to enquire into all cases that may be reported. They are giving of their time in this work and should receive the enthusiastic support of all who are able to give.

Donations of cash, clothing or other goods for the Red Cross relief fund should be given to Mrs. A. W. H. McLeod, president, or Mrs. C. F. Dunlop, secretary treasurer of the local branch, who will gratefully acknowledge same.

The Red Cross Society acknowledge with thanks \$13.68 from St. Alban's memorial day service.

### United Church Notes

Services will be held at 11 a.m. at 7 p.m. At the evening service the guest preacher will be Rev. A. A. Lytle, representative of the British and Foreign Bible Society at 8:15 p.m. He will also give a short lantern address on "The Bible in Africa." Sunday school at 12:15 p.m. Official board at 8 o'clock on Sunday. Prayer meeting Wednesday at 7 p.m.

### High School Students Made Merry Friday

#### Presentation of Gold Medals, Program of Sketches, Orchestral Selections and Sketches

The high school students held a gala evening on Friday in the K. of P. hall. Gold medals were presented to outstanding students of the year. A miscellaneous program of sketches was given, and a dance concluded the evening's festivities. The opening selection, "O Canada," played by the school orchestra under the leadership of Miss May Powell, B. A., indicated surprising progress on the part of its members in the short time they have been organized.

Presentation of gold medals was made as follows, Mr. Alex Cameron, a past chairman of the board, making the presentation, and Mrs. Whiteside presenting the medal donated by International Coal Co. Alan Short, medal for best progress during year in Grade VIII donated by International Coal & Coke Co. Ltd.

Carrie Sapeta, for highest average in the June examinations, 1931, donated by Alex. Cameron.

Alma Hedberg, second highest average in June examinations, 1931, donated by Sam Moores.

Wilfrid Hoyle, boy obtaining highest average in June examinations, 1931, donated by A. M. Morrison.

Audrey Dunlop, for making best general progress in 1930-31, donated by George Kellock.

Josie D'Andrea, boy making best general progress in 1930-31, donated by J. McDonald.

Suitable remarks were made by Mr. Cameron with each presentation. Mr. Cameron remarking that he had been actively associated with the school board for over 23 years.

Jas. M. Allan, chairman of the board, congratulated the winners, especially the girls, who had made a better showing than the boys. He urged them to try and equal the girls in this year's results.

Mr. Whiteside stated he felt proud of the high school and especially complimented the orchestra. Though only a few win medals or prizes, yet every student should apply himself or herself

### Remembrance Day Marked by Inspiring Service in St. Alban's--Memorial to Coleman's War Dead is Duly Dedicated

#### 13th Anniversary of Armistice Observed by Citizens at Divine Service--Fine Memorial Plaque Bearing Names of Coleman Men is Unveiled

Simple dignified and impressive was the memorial day ceremony to mark the observance of Remembrance Day. At 10:45 a.m. members of the Canadian Legion assembled at the parish hall, following the Girl Guides and Boy Scouts, filed into the church. The service, opening with two minutes' silent prayer, was based on the morning service of the Church of England, and the prayers and lessons were read by the Rev. A. E. Larkes, of St. Paul's United Church.

The Rev. A. S. Partington, rector of St. Alban's, gave an inspiring address, making a spiritual appeal to citizens and returned men to remember the spirit of sacrifice of Him who gave all, and of those who gave all for their country during the war.

Referring to the war memorial, he stated it was a commendable gift, and very appropriate that it would be used in service to suffering humanity. The memorial plaque, with the X-Ray machine in the hospital, were dedicated to the glory of God and to the memory of men who had served and died, and he asked all present to continue to strive in a spirit of service and sacrifice.

diligently to their studies, for it is well known that the average person might attain far better results if he tried harder than he is accustomed to.

Principal Hoyle acknowledged the co-operation he had received and felt justly proud of the school record for the year. He invited inspection of the report issued covering the year's activities and examination results. The course of studies laid down was "heavy, in fact there is too much drive in home work. Too much emphasis was placed on academic training, leaving very little time for development in other lines. For that reason there was credit due to those students who had taken part in the program of the evening, which was presented entirely on their own initiative and training.

Grade XII gave a sketch entitled "Hash." The characters were taken by Hugh Dunlop, Lois Thomas, Mildred Higginbotham, Winnifred Dunlop, Frank Vincent, Jerry Celli, with Myfanwy Griffiths as announcer.

The orchestra's selection (stringed instruments) "Merry Widow Waltz," was well played.

The "Ziegfeld Folies," by Tom Brennan, Tony DeCocco, Melvin Cornett, Gordon Miller, Eladio Sal. (Continued on Page Eight)

The dedicatory prayer was offered, and Dr. Borden performed the unveiling ceremony. A wreath from the provincial government was placed on the memorial plaque, by Lt. Col. R. F. Barnes, and a wreath from the Last Post Fund, Ottawa, for W. Good, Peter Smith depositing same. Red carnations were used to beautify the altar.

At the close of the service and following the national anthem, the "Last Post" was sounded by Commande James Lowe, the congregation standing reverently as the plaintive notes sounded through the building. The offertory was for the local Red Cross Society.

At Holy Ghost church High Requiem Mass in honor of the departed war dead was celebrated at 8 a.m. by Rev. Father E. H. Lehman, and in St. Alban's Holy Communion was celebrated at 9 a.m.

#### Honor Roll

The following names are inscribed on the plaque: J. A. Price, J. H. Williams, N. Odgers, Wm. Anderson, R. Turner, C. F. Dunlop, J. A. Josephs, J. P. Gregory, H. Chas. Leon, Henriette, Jules Gurin, G. Mitchell, Wm. Magge, E. E. Blais and H. Trette.

### Protest Against Board

The third 24-hour strike since July has been proclaimed to day by the Communist party. Blairmore miners worked, also Bellevue and Hillcrest. Protest against the Workmen's Compensation board is given as the reason of today's meeting in the K. P. hall.

The strike is regarded by some as a breach of the local agreements. One man objected to the strike but was threatened against working today. The union is not recognized as agreements are made only by the companies and local committees. The orders to strike originate from outside sources which are not definitely known. A few men going so work this morning were stopped by pickets.

A later report stated Bellevue surface workers were off for lack of cars.

### Communists on Trial

(Christian Science Monitor)

A seven-year drama climaxes in a solemn trial in a Toronto court. Nine officials of the Communist Party in Canada are brought to bar for conspiring against the government. They see one of their own number--their secretary--take the witness stand and bare their secrets. He tells of plots, of activities, of aid lent by the Soviet Internationale of Moscow. Then the most astounding thing occurs. The man is asked his name. He is not E. W. Eselwain at all. He is Sergeant John Leopold of the Royal Canadian Mounted. But he has been the Red secretary for seven years! Yes, admits the officer, it took that long to fulfil his detail from headquarters--to get his men. Also, he has probably "got" Communism in Canada. The melodramatists will have to give up the "Mounties." Truth has so outstripped fiction that fiction seems tame.

#### ST. ALBAN'S CHURCH

Services on Sunday, 24th after Trinity: Holy Communion at 8 a.m., Sunday school 2:30 p.m., evening song and sermon 7 p.m.

### Memorial Plaque Is Unveiled at Armistice Day Service

#### Proposed to Erect Cairn on Garden Spot at Town Hall as Memorial to Coleman Men

A few weeks ago an X-Ray machine over that formerly in use at the hospital was installed. It was a memorial gift, the cost being met from the war memorial fund, contributed by the Canadian Legion, Elks lodge, mine companies, school board, town council and donations by private citizens.

The first collection for the memorial was made four years ago by Peter Smith, at the time secretary of the Canadian Legion, and who acted as secretary of the war memorial fund. George Pattinson has been chairman of the committee, and was successful in raising over half of the required sum to complete the project. A full statement is given of the subscribers, with the exception of the donors to the subscription list which was circulated in 1927. These amounts are included in the statement below. (Continued on Page Eight)

### Masonic Meeting at Cowley

At the annual meeting of Masan District No. 8, held last Thursday at Cowley, the following officers were the Rev. G. W. Kirby, provincial grand master, and the Rev. Canon Middleton, past provincial grand master. Quite a number from Coleman attended the afternoon business session, their numbers being further augmented by those who went down for the banquet in the evening.

Members from Coleman attending were: G. Pattinson, R. F. Barnes, Maurice W. Cooke, Alan Brown, J. O. C. McDonald, H. McLeod, Albert F. Short, Sidney Short, Chas. W. MacKinnon, H. T. Halliwell, W. L. Rippon, Jas. Ford, J. Houghton, Jas. Park, Andrew Jackson, Wes. Vincent, A. L. Watkins, J. Emmerson, John Bell, F. G. Creegan.

## The Hudson Bay Route

The recent successful voyage of the steamer "Farnworth" from Churchill to London, England, loaded with the first cargo of wheat from Western Canada's own source, and which voyage was made in the short space of sixteen days, marks an epoch in Canada's maritime history.

It is true that vessels have passed in and out of Hudson Bay every year for more than a century; it is even true that two rival navies entered the Bay, fought a battle there, and sailed out again. It is also true that the success attending the voyage of the "Farnworth," and its sister ship, the "Warkworth," was an outcome fully expected by Western people. The importance of this venture lies in the fact that it provided the final demonstration to Eastern Canada and the world that the West's belief in the feasibility of the Bay route, and its demands, extending for fifty years back, for the construction of the railway to the Bay were fully justified.

It has been proven that the Bay route can be made a commercial success; that the 1,000 mile shorter route from the heart of the grain growing prairies to the centre of the Empire is a practical route. But the fast, safe trips of the "Farnworth" and "Warkworth," through what had for years been regarded as the "frozen North," are not in themselves sufficient guarantee that the new route will become the important factor it should be in the economic history of Western Canada.

The Hudson Bay route is 1,000 miles shorter than any other route; it is feasible; it is practical; it can be made a success. But, in order to be a complete success and to provide an adequate return to the people of Canada for the \$50,000,000, more or less, expended on the railway, the port terminals and for navigation aids through the straits, other things are essential. Unfortunately, some of these matters are tangled up in the controversies of rival policies of political parties. With these rivalries this column has no concern, but, speaking for the West, it must be said without any qualification that they cannot, must not be allowed to hamper the success of the Bay route.

Among the things now essential to the success of that route are:

(1) The lowest possible rates of freight on both outgoing and incoming shipments over the Hudson Bay railway, and this means the application in all its detail of the Crow's Nest Pass schedule to the Hudson Bay railway.

(2) The lowest possible rates of insurance on both vessels and cargoes utilizing the Bay route, and, in this connection, absorption by the Federal Government of any excess in such rates charged over and above those obtaining on other routes until experience demonstrates what the proper rates should be.

(3) The removal of any existing obstacles to the freest possible passage and entry of merchandise and products of all kinds from the more easterly sections of Canada and the markets of Europe into Western Canada by means of the Bay route and the port of Churchill, such removal of existing obstacles to be accompanied by every reasonable encouragement of such traffic. This is essential because no railway and no ocean-going vessel can quote low rates if it can depend on only a one-way traffic.

(4) Finally, it is important that certain lines of railway be built in the West which will have the effect of connecting up existing lines in the shortest and most direct way possible with the Hudson Bay outfalls. This can be done in the majority of cases with comparatively short cut-offs. Some people advocate making Churchill not only a national port, but a free port. That may or may not be feasible. Such a decision would have an effect on the whole fiscal and economic system of the Dominion, although unquestionably it would give a great boost to the Bay route and make its success assured.

The point of this article, however, is just this: The Hudson Bay route can, we believe, be made to realize the dreams of western people; it can be made a financial success as well as a great economic and commercial enterprise. The opportunity and the responsibility now rests with the people of the West, irrespective of class or party, to work together in union to achieve that result. Freight rates must be the lowest possible; insurance rates likewise; necessary railway branch cut-offs must be built; obstacles, if any, to movement of traffic removed; full encouragement for use of the route provided. All political parties have had a hand in the building of the railway and the opening of the route; all have a common interest in its success. So, regardless of party, all Westerners should work together to make that success an assured fact.

### Upset Telegraph Service

East African Natives Used Wires For

Telegraph wire, in varying lengths, attached here and there to otherwise scanty clothing, means chic to the natives of Tanganyika and Kenya, South Africa, and as a result the capital was without wire service to the coast for more than 24 hours.

The demand for wire for sartorial purposes exceeded the available non-commercial supply, so the natives cut telegraph lines about 24 miles from Mombasa and took what they wanted. Cable messages had to be sent to Mombasa, and thence by train, until the damage was repaired. The delay was 16 hours.

The sun is estimated to have 50,000,000 'tons of platinum in the form of a gas heated to 11,000 degrees Fahrenheit.

Most of the people who talk about hard times don't know anything about it.

### Big Blueberry Crop

Shipments of Blueberries From Kenora  
This Year Totalled 253,000 Pounds

One Kenora industry showed a remarkable increase this year, as compared with 1930. Blueberries shipped from Kenora this year showed an approximate increase of eighty per cent, over last year's shipments.

The 1930 blueberry crop was 145,000 pounds, or some 8,700 baskets, while this year the shipments totalled 253,000 pounds, or some 15,300 baskets. While the prices this year were lower than last year, yet the increase was even more marked, in the fact that there was always a market this season for the berries, a fact that is not always experienced in other years.

### All Dressed Up

"Mahatma Gandhi and other delegates to the second round-table conference were invited by the Lord Chamberlain to attend a party at Buckingham Palace. Commenting on this mode of dress, Gandhi said, "I will wear my habitual dress of loin-cloth, shawl and sandals."

A bird of paradise ornaments the new special stamps issued by New Guinea to commemorate 10 years of British occupation.

An air-cooled, dustless and virtually noiseless sleeping car has been designed for tourists travelling on railways.

Woodrow Wilson is the only president of the United States buried at Washington, D.C.

### Life Insurance In Canada

Per Capita Record Surpassed Only By United States

A statement issued by the Life Insurance Society Research Bureau shows that in the first nine months of the present year a total of \$367,223,000 of new paid-for ordinary life insurance was sold in Canada and Newfoundland.

This hardly indicates that Canada is broke.

What it does indicate is that if Mr. Bennett should be required to float an internal loan he ought to have no difficulty in raising an amount up to \$200,000,000.

Incidentally speaking of life insurance, the total of insurance in force in Canada at the present time is \$4,500,000,000 or \$650 for every man, woman and child in the Dominion. It is one per capita record surpassed by only one country in the world, the United States—Ottawa Journal.

### NEIGHBORS TALK

"I am employed in a theatre and it is a problem to make ends meet, as I help support my mother and sisters. I like to dress well but haven't very much to spend on clothes. To give the appearance of variety to my slender wardrobe I change the colour of a dress or stockings and so the things become faded. I always use Diamond Dyes for the work—using them as dyes for dresses and as tints for stockings. I have always gotten such perfect results that our neighbors talk about the great number of new things I have."

"I learned about Diamond Dyes from a woman in the wardrobe department. She says she has tried all the dyes on the market but none do such splendid work and are so easy to use as Diamond Dyes. I understand they are the world's most popular dyes—and they deserve to be."

L.P., Montreal.

### Auditorium For Winnipeg

Federal Government Will Share In Cost Of Construction

Approval by the special sub-committee of cabinet on unemployment relief of \$1,250,000 additional expenditure for the Province of Manitoba, including the Federal Government's share in the cost of construction of a large auditorium in the City of Winnipeg, was announced by Hon. G. D. Robertson, Minister of Labor, and chairman of the sub-committee.

Federal Government commitments for the Province of Manitoba are now up to \$2,250,000, as compared with \$800,000, which was the Federal allotment for Manitoba last year in addition to the necessary direct relief on an equal three-way basis between the cities, province and Dominion.

Asthma Victim. The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with the effects of choking asthma, which fairly threaten the existence of life itself. From a common cold, Dr. J. D. Kellogg's Asthma Cure has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

Visitor (at church fair)—The pastor's wife seems rather upset; do you know the reason?  
Church Worker—Yes; she put her hat down when she came to help, and some one sold it for thirty cents.

When **TEETHING** makes HIM FUSSY

One of the most important things you can do to make a teething baby comfortable is to see that little bowels do their work of carrying off waste matter promptly and regularly. For this nothing is better than Castoria, a pure vegetable preparation specially made for babies and children. Castoria acts so gently you can give it to young infants to relieve colic. Yet it is always effective, for older children, too. Remember, Castoria contains no harsh drugs, no narcotics, is absolutely harmless. When your baby is fretful with teething, give a food upset, give a cleansing dose of Castoria. Be sure you get genuine Castoria with the name: *Dr. J. C. Williams*

**CASTORIA**  
CHILDREN CRY FOR IT

## TOO FAT AT 22

Lost 19 lbs.—And Backache

"I am 22 years of age, and I weighed 163 lbs. I had pains in the back and head. I didn't care about anything. When my friend told me to try Kruschen Salt, I would not at first. I was sick of taking salt. But since I tried Kruschen Salt, six months ago, I have lost 19 lbs., and feel a different woman, so I am very thankful to Mrs. — who recommended Kruschen Salt."

The condition which caused this woman to put on weight was also the cause of her backache and headaches. The whole trouble was due to the internal organs failing to expel from the body regularly and completely, the waste products of digestion.

The six salts of Kruschen assist the internal organs to perform their functions properly—to throw off each day the waste and poisons that encumber the system. Then, little by little, that ugly fat goes—slowly, yes—but steadily. The backache and headaches disappear. You feel wonderfully healthy, youthful and energetic—more so than ever before in your life!

### Russia and Germany

Soviets Have Good Reason For Not Stirring Up Revolution

For once the Soviet Government of Russia has been reluctant to play with fire in a powder house. On every earlier occasion when Russia's neighbor, Germany, passed through a difficult financial situation, Russian agents were busy in Hamburg, Dresden, Berlin, and other cities, attempting to stir up revolution. In the present case Russia has apparently kept its hands off, and one of the dispatches from Moscow suggests the reason.

Russia's chief interest today is the five-year plan. If this project is to succeed, Russia must build up an export trade. One of the best markets for Russian exports is Germany. Revolution in Germany might endanger the five-year plan by depriving Russia of an indispensable outlet for her raw materials which she must sell abroad, in order to build up credit with which to purchase machinery and tools.

If the Soviet's policy toward Germany is any guide, the world has less to fear from Russia, and more to hope for, than from the war, than from Russia, starving and empty handed.

### Free Scholarship

C.P.R. Offering Scholarship At McGill To Apprentices And Other

Employees  
A free scholarship, covering either one year in arts and four in chemical, civil, mechanical, electrical, engineering, or five years in architecture at McGill University, is offered by the Canadian Pacific Railway Company, subject to competitive examination, to its apprentices and other employees.

Less than 21 years of age, and to the minor sons of employees, according to a bulletin issued by Grant Hall, vice-president of the company.

Candidates will qualify by writing either the high school leaving examination of the Province of Quebec, or the McGill matriculation examination, at the university, or elsewhere in Canada, in June, 1932. The candidate receiving the highest average in subjects required for admission will be awarded the scholarship, with choice of any of the courses mentioned. The scholarship is renewable from year to year, provided its holder is entitled to full standing in his next year.

### Must Ensure Safety First

Greater Need Of Present Time Than More Speed

"With the super-highways and the marginal roads that are being built around cities, normal speeds of 65 to 70 miles per hour or more will without doubt be possible." Such is the prediction made recently by an automotive engineer. Automobiles are killing more than 30,000 persons annually in the United States. Nearly half of the victims are pedestrians. More than 800,000 persons were injured in automobile accidents last year. About one-third of them were pedestrians. An automobile creeping slowly along does not crash into trees and fences as a rule. An automobile creeping slowly along does not knock down pedestrians as a rule. The need of the present is not more speed, but more safety. Any attempt to get more before we get more safety means no progress but madness.

Not Much Fun  
Babe Ruth can't attend the movies, drive his car fast, indulge in rich foods or stay out late at night. The world still knows as a rule, New York Times observes, how dreary it is to be a baseball player drawing \$30,000 a year.

Mistress—"I don't understand why the Butler don't come to dinner."  
The Maid—"Oh, I have a toothache and called them out asking if they'd just as soon come next week."

Now is the time to lay plans for the tourist trade of 1932.

### British Postal Notes

Post Office Department Says British and Irish Free State Postal Orders No Longer To Be Cashed

Due to the depreciation of British pound, orders have been issued by the post office department that British and Irish Free State postal notes are no longer to be cashed. The order does not apply to post office money orders. The explanation given at Ottawa is that postal notes are settled with London on a different basis to money orders, and involve the risk of exchange fluctuations. In any circumstances, then Canadian post office authorities have been inclining to the view that circulation of British and Irish Free State postal notes should cease in Canada and the present chaotic exchange situation appears to provide a suitable occasion for bringing the change of policy into effect.

These governments, however, on advice from Ottawa, have now ceased to issue postal notes for Canada, and will issue only money orders hereafter. The money order, it is stated here, does not involve any exchange risk.

The British exchange situation also has had repercussions on the circulation in Canada of British bank notes. The pound and ten shilling notes, it is learned, are no longer being accepted by many of the Canadian banks.

### Cancer Clinic

Saskatchewan Taking Advanced Steps In Control Of Disease

As a further step in the campaign of the Saskatchewan Cancer Commission, a government treatment clinic will shortly be established in Regina and Saskatoon. The commission has established a fund for the purchase of and use of radium for cancer and other malignant diseases. Definite date for the opening of the clinics has not been decided.

A supply of radium will be located at the clinics and will be housed in an especially constructed vault. Radio emanations will be secured from the University of Saskatchewan at Saskatoon. All those who think they have the disease will be examined free of charge if necessary.

Persian Balm is a sheer delight to use. Cools and relieves irritations caused by weather conditions. Imparts a rare charm and beauty to the complexion. Fragrant and velvety smooth. Never leaves a vestigial stain. Swiftly absorbed by the skin. Persians Balm is the peerless toilet requisite. Every woman will appreciate the really distinctive charm achieved by the use of this magical lotion.

### Not Densely Populated

British Columbia is one of the most richly endowed provinces of Canada and covers an area greater than the total acreage of the United Kingdom, France, Holland, Belgium and Denmark, yet only has a total population equivalent to the town of Sheffield, in England.

The first poet to assume the title of poet laureate of England was Geoffrey Chaucer who, in 1390 got a royal grant of a yearly allowance of wine as one of the perquisites of the office.

### New Growth Of Hair

Illinois Doctor Thinks It Has Discovered Cause Of Baldness

If your head looks more like a billiard ball than a hairdresser's advertisement, it may only be a sign that your anterior pituitary gland is off its feed.

The University of Illinois research and education hospital let it be known that it is continuing experiments started by Dr. B. Norman Bengtson of Maywood, Ill., on what causes baldness.

Dr. Bengtson accidentally discovered, one day, that a new growth of hair was growing on the head of a woman to whom he was giving glandular extracts in treatment of her tendency to overweight.

Dr. Bengtson considers that the anterior pituitary gland at the base of the brain regulates the growth of hair. One of his subjects, his records show, was a man of 58, bald for two years, who developed a complete head of gray hair which eventually turned black after several months' treatment.

### Harmful Radio Activity

Theory Advanced That Fat Protects Cells Of Body From Inroads

Evidence that thin sheets of fat protect living cells of the body from harmful electrical activity has been discovered at Purdue University.

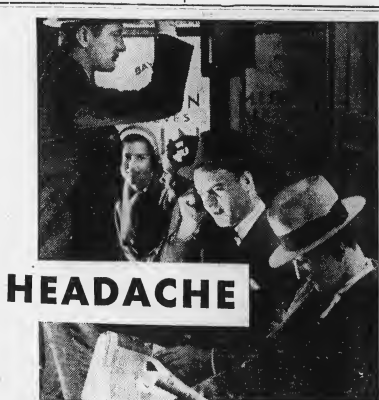

This electrical activity is ionization, radiation in which minute electrified particles spread about like dust. The electric dust is so widespread that it is possible no particle of living matter is for long out of contact with it. It is caused by radio-activity and many other phenomena.

One difference between life and death appears in the reaction of cells to these stray ions. They permeate dead cells but the living possess some unexplained power of resistance. The ions do not get inside while life lasts.

Douglas' Egyptian Liniment should be in every household. Stops bleeding at once, cauterizes wounds and prevents blood poisoning. Keeps away inflammation and proud flesh.

### Mecca For Golfers

Winter sports on Vancouver Island include golf, riding, tennis, fishing and yachting. Golf has been played on Victoria courses every day in the year, a test that is possibly unique on the North American continent.

## HEADACHE

A hard day at the office, and a headache homebound bound. All for the want of two little tablets of Aspirin. Don't be helpless when you suddenly get a headache; carry Aspirin with you. The pocket tin doesn't take up any room, but what a comfort when it's needed!

Fatigue will frequently bring on a headache. It lowers the vitality and invites a cold. Take Aspirin and throw it off! Don't wait until you are miserable. There is nothing in Aspirin to hurt the heart or upset the stomach or harm the system in any way. Your

doctor will tell you that! But, get Aspirin—not a substitute!

Follow the proven directions to be found inside each package. They cover colds, sore throat, headache, toothache, neuritis, neuralgia, sciatica, lumbago or rheumatism, muscular pains, and even ear pains and aches for which these tablets are a positive antidote. Keep your pocket tin filled from the bottle of 100 tablets. Every drug store has Aspirin in bottles, as well as the familiar little box.

Aspirin is made in Canada.

## Huge Flying Boat Being Planned By British Air Ministry

London, Eng.—Designed to carry 120 passengers on a trans-Atlantic service to Canada, the world's largest flying-boat is being planned by the British Air Ministry. The new liner will be nearly twice the size of the German DO-X and, with a full load of fuel, will weigh about 60 tons. It will have a flying range of 2,500 miles and a speed of 120 miles an hour.

The Air Ministry, it is understood, is planning other giant machines to bring the whole Empire into direct aerial communication with London. A 35-ton supermarine Napier flying boat, similar in size and power to the DO-X, is already in the hands of the Air Ministry. It is intended to be used for a trans-Atlantic service. The chief pilot, navigator and other officers will be housed in a superstructure above the main cabin, similar to the bridge of a ship. The Napier engines have not been decided, but a craft of this size would need at least 60,000 horsepower.

Orders have been placed for eight giant monoplanes for operation on the express and air mail service between London and Cape Town. The machines, which will be the largest monoplanes ever built in Great Britain, will be designed especially for flying over the tropics. Passengers will have more room than has been allowed in any previous air liner. Ice chests will be fitted to supply cold drinks and food.

The largest air liner ever placed in service east of Suez left Croydon recently for Egypt where it will see service on the Cairo-Karachi section of the British air route to India. The pilot will be a brother of the late Sir John Alcock who, with Sir Arthur W. Brown, in 1919 made the first non-stop flight across the Atlantic.

### U.G.G. Has Good Year

Heavier Handling Of Grain And An Operating Profit

Calgary, Alberta.—Reports showing heavier handling of grain and an operating profit for the fiscal year ended July 31, 1933, were submitted to the annual meeting of the United Grain Growers, Limited, here.

Payment of a 5 per cent dividend, amounting to \$159,056.49, was made and the surplus account was brought to a total of \$803,387.95. Current assets were given as \$3,131,667.16 against current liabilities of \$1,714,487.83.

The 350 delegates heard R. S. Law, Winnipeg president, announce that the volume of business handled in the fiscal year had been considerably greater than in the previous year.

### New Agreements Necessary

Before Ottawa Will Pay Increased Share Of Old Age Pensions

Ottawa, Ont.—Provincial governments have been notified by the Dominion that new agreements will be necessary before the federal treasury will proceed to pay 75 per cent of old age pensions instead of 50 per cent, which was the amount fixed under the old act. The new act was to start on July 31 and as it provides for payments each quarter, the first quarter is over and it is expected steps will be taken very soon to conclude the new agreements.

## Prairie Farmers Swinging To Mixed Farming, Says Hon. Robt. Weir

Ottawa, Ont.—The prairie farmers will continue their shift into mixed farming regardless of the upswing in wheat prices. This was the prediction of Hon. Robert Weir, Dominion Minister of Agriculture, who did not expect any increase of wheat acreage in the west next year over this year, including the drought areas.

"The present, Mr. Weir considered, a most opportune time for farmers to go into livestock, as he said he was convinced cattle prices would go up very soon. He expressed the opinion that the number of beef cattle in Canada had been over-estimated and there was little or no surplus beyond the country's needs.

The department is inaugurating a new policy to encourage livestock production in those portions of the prairie where there is sufficient

### Alberta House May Meet Before Christmas

To Enact Legislation For A Provincial Income Tax

Edmonton, Alberta.—Predictions of a special session of the legislature before Christmas to enact legislation for a provincial income tax in Alberta were made at a banquet here by W. R. Howson. The banquet was held in honor of Hon. Charles Stewart, Liberal member in the House of Commons for West Edmonton and former Minister of the Interior.

"Mr. Howson, House Leader of the Liberals in the Alberta Legislature, in an address predicted 'that before Christmas Premier J. E. Brownlee would call a special session to enact legislation empowering the imposition of a provincial income tax, to be made retroactive,' Mr. Howson said that the Premier was seeking a legal advice to ascertain how much notice it was necessary to give before calling the House together.

### National War Memorial

Impressive Monument 90 Feet High To Be Erected At Ottawa

Ottawa, Ont.—Canada's national war memorial at Ottawa, which will be one of the most beautiful and impressive of its kind, is expected to be completed early next summer. Rapid progress is being made on the memorial, it is stated in reports from England, by the sculptors, the March Brothers and Sisters.

Ninety feet high, showing a colossal group of figures in bronze, expressing the heroism and self-sacrifice of the Canadian people, the memorial will stand in Confederation Park. Its erection will involve the removal of the city post office terminal, and a new arrangement of uptown vehicular traffic.

### Resigns Judicial Post

Mrs. Emily Murphy Gives Up Position In Edmonton

Edmonton, Alberta.—The first woman to be appointed to such a post in the British Empire, Mrs. Emily Murphy, who has held office here for 15 years, has resigned as women's police magistrate for the City of Edmonton. She also vacates the post of judge of the juvenile court for this city.

While resigning as an active police magistrate for the city, Mrs. Murphy will continue to hold her appointment as a police magistrate and judge of the juvenile court for the province of Alberta.

The retiring magistrate, widely known as "Janey Canuck" played an active part in the fight to have women recognized as eligible for appointment to the Canadian Senate.

### Tribute To War Dead

Montreal.—The engines of ships at the wharves here thrum on Remembrance Day in tribute to those who died in the war. Headquarters of Canadian Pacific and Canadian National Steamships announced that instructions had been given to ships for a two-minute silence just before 11 o'clock on the morning of November 11 unless the sea is rough.

### Wheat Exports Increase

Falling Off In Russian Deliveries Helps Wheat Trade Here

Ottawa, Ont.—Increase in the shipments of Canadian wheat overseas and the falling off in Russian shipments during the latter part of October featured a report issued by Hon. H. J. Stevens, Minister of Trade and Commerce. For the week ending October 29, Canadian wheat was exported to the total of 3,753,221 bushels, heaviest weekly export movement since last June.

Russian exports for the week ending October 31 were 2,088,000 bushels, whereas the week before it was 4,040,000. These figures are much below the corresponding weeks of last year. For the four weeks ending October 31, this year, Russia shipped 12,609,000 bushels, whereas for the corresponding period last year she shipped 18,280,000 bushels.

It is interesting to note, the statement asserts, that during the first five weeks of November last year, Russian shipments reached their peak for the year, totalling 18,936,000 bushels. While Russia may continue to ship moderately during the next few weeks, it is unlikely that shipments will come anywhere near the totals established in November last year.

World shipments of wheat and flour amounted to 14,600,000 bushels for the week ending October 31, 1933, compared with 15,747,000 for the same week last year. North American shipments amounted to 7,014,000 bushels compared with 8,557,000 bushels for the week previous and 8,230,000 bushels for the corresponding week last year.

### Work For Train Crews

Enlarged Movement Of Grain Increases Employment On Railways

Calgary, Alberta.—Both Canadian National and Canadian Pacific Railways east and west have had to increase their train and engine crews to cope with the enlarged movement of grain in the past few weeks, it was announced here. The movement was reported to be considerably heavier than during the corresponding period last year.

Calgary office of the Canadian Pacific Railway stated that eight more train and engine crews than were required at this time last year were employed in the last few days to handle the freight service out of Calgary. A corresponding increase was announced by the Canadian National Railways, which stated that the movement was much above this period in 1930. The movement of grain between Calgary and Edmonton was estimated to have doubled in the last week.

### Harvester Company Resumes Operation

Plants Have Been Re-Opened In Canada And United States

Chicago, Ill.—Officials of the International Harvester Company announced that it has resumed active operation in all its Canadian and United States plants. Several hundred men are back at work at wages ranging from 10 to 20 per cent. under the former rates.

Seniority rights, the officers said, will be observed in the re-employment and married men will be given preference. The new schedule of wages and plants increasing the week to four days will affect approximately 20 plants.

### THE "OBSERVER" LEAVES PARLEY WITH LORD READING

Pressing Gilbert (left), the United States Consul at Geneva, and the first American to sit in the Council of the League of Nations, is shown leaving a League session with Lord Reading, Britain's delegate to the League and Foreign Secretary in the National Government. Gilbert was seated with the Council as an "observer" during the Sino-Japanese crisis.

### BRITISH STATESMAN

Sir John Simon, who was unanimously elected leader of the National Liberal group in the House of Commons. Sir John Simon has been appointed Secretary of State for Foreign Affairs in the New National Cabinet.

### National Train Wrecked

Several People Injured When Train Leaves Track Due To Broken Rail

Winnipeg, Man.—Twelve people were injured, two seriously, when the crack Montreal-bound flyer of the Canadian National Railways—"The National"—was derailed 17 miles east of Winnipeg. Two baggage cars, a tourist coach, day coach, diner and sleeper left the rails.

Most seriously hurt were George Whitworth, dining-car waiter, who may lose an eye, and R. P. Stewart, Toronto, dining-car cook.

The injured, besides Whitworth and Stewart, follow: Charles Carey, Kingston, Ont.; J. C. Carr, Port Dabouche, Ont.; Aubrey Webber, Reddick, Ont.; Edwin Cawood, Montreal; George Foote, Collingwood, Ont.; James Clayton and Annie Dur-javitch, no address; William Horton Liscombe, N.S.; Clement Pettipas, Toronto; A. S. Davidson, Toronto.

Six of the 21 persons requiring hospital attention were members of the train crew, according to a statement by A. A. Tisdale, general manager for western lines. About 500 feet of rail were torn up, he said, and the derailment was due to a broken rail.

### Empire Central Bank

Clearing House For All Banks Of Empire Is Urged

London, Eng.—Creation of an Empire central bank to act as a clearing house for all central banks of the Empire is the chief recommendation of the report of the joint committee appointed by the Federation of British Industries and the Empire Economic Union.

The report further suggests summoning of an Empire currency conference which might be able to establish a "pax-Britannica," built up out of the present anarchy of the world's monetary affairs.

### Thinks Will Unjust

Norwalk, Conn. Mrs. Marion Oser says she will not join her brother, William L. Edison, in contesting the will of their father, Thomas A. Edison. "I think the will is very, very unjust," Mrs. Oser said, "but I will not fight it. The fight probably would run for years, and I do not think I could stand it."

## League May Take Action To Force Japan To End Hostilities

### Route Wheat To Victoria

Alberta Pool Anticipates Heavy Shipments From B.C. Ports

Vancouver, B.C.—Representatives of the Alberta Wheat Pool here announced that owing to the heavy movement of grain westward from the prairies and anticipated increase of shipments overseas from British Columbia ports, the pool had decided to route 1,000,000 bushels of wheat immediately to the Ogden Point elevator at Victoria, which it has leased.

On Nov. 4 there were 2,995 cars of grain on the western divisions of the railways, with 683 of these now at the terminals. Last year at the same date there were only 1,242 cars rolling. Figures disclosed 13,168,551 bushels of grain in elevators, an increase of 5,548,896 bushels are in storage over last year at this date.

According to official records 7,760,666 bushels have been booked to load during November and December, of which more than 6,900,000 bushels are for shipment to the United Kingdom and the continent, and 816,666 for the Orient.

### Statistics Indicate

#### Present Year Healthy

Curative Death Rate Both In U.S. And Canada 9.1 Per 1,000

Toronto, Ont.—The year 1931 has been an exceptionally good year for grain, according to life insurance statistics, the cumulative death rate both in Canada and the United States being 9.1 per 1,000. This is approximately one per cent. in excess of that of 1930, when the minimum rate for all time was registered.

Mortality for heart disease is two per cent. higher than in 1930. Tuberculosis is establishing a new minimum mortality record for all time, registering only 17 per 100,000 for the ten months, a decrease of 5.9 per cent. in the period of one year. Diphtheria's death rate has declined 34.6 per cent. this year, a new low record. On the other hand, the cumulative rate for diabetes is considerably higher. The rate for cancer has also increased five per cent.

## Ramsay MacDonald Completes Draft Of New National Cabinet

London, Eng.—In his Lossiemouth retreat, Premier Ramsay MacDonald completed drafting his new National cabinet. A cabinet of 20 replaces the emergency cabinet of 10.

It is as follows: Prime Minister and First Lord of the Treasury, Rt. Hon. Ramsay MacDonald, National-Laborite.

Lord President of the Council, Rt. Hon. Stanley Baldwin, Conservative. Lord High Chancellor, Lord Sankey, National-Laborite.

Lord Privy Seal, Rt. Hon. Philip Snowden, National-Laborite. Chancellor of the Exchequer, Rt. Hon. Neville Chamberlain, Conservative.

Secretary of State for Home Affairs, Sir Herbert Samuel, Liberal. Secretary of State for Foreign Affairs, Sir John Simon, Liberal.

Secretary of State for the Dominions, Rt. Hon. J. H. Thomas, National-Laborite.

Secretary of State for the Colonies, Sir Philip Cunliffe-Lister, Conservative.

Secretary of State for War, Lord Ha'lam, Conservative.

Secretary of State for India, Sir Samuel Hoare, Conservative.

Secretary of State for Scotland, Sir Archibald Sinclair, Liberal.

Secretary of State for Air, Lord Londonderry, Conservative.

First Lord of the Admiralty, Sir Bolton Eyres-Monsell, Conservative.

President of the Board of Trade, Rt. Hon. Walter Runciman, Liberal. Minister of Health, Sir H. Hilton Young, Conservative.

President Board of Education, Sir Donald MacLean, Liberal. Minister of Agriculture and Fisheries, Sir John Gilmour, Conservative.

Minister of Labor, Sir Henry Betterson, Conservative. First Commissioner of Works, Rt. Hon. William Ormesby-Gore, Conservative.

Geneva, Switzerland.—Possibility of a concerted withdrawal from Tokyo as the next move in the Sino-Japanese conflict was considered by League of Nations leaders Friday night, November 6, in planning for the next meeting of the council in Paris on November 16.

In fact, the legal section of the secretariat, under orders from Secretary-General Sir Eric Drummond, was studying Article 15 of the league covenant to determine whether the member nations could be asked to remove their ambassadors and ministers in the event that Japan continues to reject measures of arbitration. This article deals with sanctions of a military and economic nature to be invoked against an aggressor nation.

It is understood that this examination also envisages the practicability of levying an economic boycott against Japan, but such action remains in the background for the present.

Tokyo, Japan.—The three-day visit of Nani River ended Friday, Nov. 6, with the Japanese army in control of that part of northwestern Manchuria and the Chinese Heilungkiang provincial army in flight. Japanese losses included 130 killed. No estimate of Chinese casualties was available here, but press dispatches said they were apparently large.

The battle was concluded by arrival from Changchun and Taonan of Japanese reinforcements which swept the Chinese out of their hill-top position around the town of Tashing, six miles north of the bridge, and sent them northward in disorderly retreat. Japanese bombing planes hastened their panic-fled flight.

### U.G.G. Elect Officers

Calgary, Alberta.—R. Law, of Winnipeg, was re-elected president of the United Grain Growers at the directors' meeting here Friday, November 6. The U.G.G. completed its annual meeting Thursday, November 5. J. J. McLeellen, of Purple Springs, Alberta, was elected first vice-president, and J. F. Reid, Orcadia, Sask., second vice-president.

Woolly manufacturers are experimenting with the use of the sweater to replace garters and suspenders.

tion before the general elections—was formed after the collapse of the Labor administration. It consisted of four Labor members, four Conservatives and two Liberals. The new National Government, reflecting to a certain extent the sweeping changes which the general elections made in the complexion of the House of Commons, consists of 11 Conservatives, five Liberals (including Sir John Simon) and four National-Laborites.

The two key positions of Chancellor of the Exchequer and President of the Board of Trade go first to Neville Chamberlain, the second to Walter Runciman. The new chancellor, a protectionist, replaces Philip Snowden, a free trader, who becomes Lord Privy Seal in succession to Lord Peel.

At the opening of the Conservative campaign at Birmingham, Mr. Chamberlain, referring to the adverse balance of trade, said: "I think in Birmingham we shall all be united in feeling there is no policy we can seek that can be an effective substitute for the policy of protection, for our home industries and for the maintenance of our home standards."

The holder of the other key position regarding trade policies, Mr. Runciman, has been a life-long free trader although before the elections he declared his readiness to support an embargo against imported luxuries if he believed that step necessary to redress the balance of trade.

Sir Philip Cunliffe-Lister, who leaves the Board of Trade for the secretaryship of the colonies, also is a firm believer in protective tariffs.

Sir Hilton Young, who has been promoted from Parliamentary Under-Secretary for the Board of Trade to Minister of Health, argued during a campaign meeting at Carlisle that no general low-revenue tariff of 10 per cent. or so would serve to stabilize the pound. "It must be," he said, "on the basis of 33 per cent."

## NOTES AND COMMENTS

The course of studies in home work is too heavy, as parents and teachers will agree. Strained eyes and nerves, severe nervous tension of students and some brought to the verge of nervous breakdown cause people to wonder--it is worth while?

So intensive is the course at certain seasons that students are working their brains too long hours. All honor to the student who heads the honors list. Yet, how often is a brilliant student left behind on entering commercial life, where practical adaptation counts to a greater extent than academic knowledge.

There is need of technical training in place of the extended courses which high school students take several years to cover. The need is seen in Coleman, as it is in other places where boys and girls are attending high schools because there is no place for them in business life. Teachers will acknowledge that further education is of little value to certain types. The present system trains for white collar jobs, making no provision for students who will take up work in skilled trades. Yet the system goes blindly on. Misfits continue to attend high schools and possibly try a year at university before they discover the truth concerning themselves.

Tell people pleasant things, and they think you a good fellow or generous with "soft soap." Tell the truth, avoiding flattery, and probably you'll be termed a crank and a sorehead. Remain silent, not committing yourself, and undoubtedly you'll be considered a numbskull or a wise man, depending on the viewpoint of those to whose scrutiny you are subject. Clever is the man who can steer the course which gains the approbation of all--clever indeed!--but he has yet to be discovered.

Serve the people well, give years of life to public service, and you will be fortunate if at least some of the people don't try and crucify you. Some sit at home and grouse; others get out and sacrifice time and energy. The thanks they report is the sarcastic comment--"They have an axe to grind." And the axe is usually being ground in the interests of the knackers equally as much as the workers.

But the world's work is carried on by the workers who strive for progress and advancement, and when it comes to the end of life, a man's value is judged not by the wealth he may have amassed, but on how he served those who were his companions and neighbors in every day life. Life furnishes a glorious opportunity for all to accomplish some good. We all fail to rise fully to those opportunities!

Some take life very seriously. Of course, the past two years have made most people take a more than usual serious view of life. Incomes have dropped, because of a slowing down of business in all lines. Those who gained are those who suffered no reduction of income. With falling prices their incomes really increased in value. Yet they pull a long face as if they are suffering from hard times. They should be wearing a smile and feeling happy at having sufficient money to pay as they go. Since 1928 there has been a steady reduction of income for business men and workers of Coleman. A glance at the coal shipments will convince one of the reasons. In 1928 one company shipped an average of 1,000 tons a day for 300 working days. In the succeeding years it has dropped very considerably. With further curtailment of railroad services consumption will be reduced.

However, though material things play a vital part in life, creative thought and mental energy can overcome many difficulties. A healthy outlook with a determination to make the very best of conditions will enable one to bear life's burden's more lightly, and to perceive the sun shining through the clouds. It is surprising what man will accomplish under what at times appear to be staggering difficulties. A cheerful outlook is a great help.

The man who straddles the fence is bound to be knocked from his perch. He may try and create the impression that he is favorable to the "Reds," yet when in the company of those who uphold the constitution of their country will be one of them. But deception is discovered, and he is distrusted by both sides. He is neither fish, fowl nor good red herring. If you're a "Red," come out in the open and admit it; if you're a Canadian and a Britisher, show that you are proud of it. Don't be a "pussy-footer," or a four-flusher.

These remarks are not the result of a disordered liver. But we must confess that the spineless attitude of some and the buncombe of others give one a pain in the neck. We'll have to laugh it off to feel better.

## Reminiscences of The First Armistice Day

Old Copy of London "Star" Recalls Joy Ride Through Old City's Streets by Col. Barnes

The Journal is indebted to Jim Gardiner for a copy of the London, (Eng.) "Star," published the morning of the signing of the Armistice and purchased by him whilst on leave. Col. R. F. Barnes dropped into the office just after the items headed "The Maddest, Merriest Day," noticed the following paragraph:

"A motor car had a dozen R. A. F. pilots with megaphones, tin whistles and toy drums, as it went through the city."

He immediately recognized it as an incident in which he was one of the participants in the car, but says it omitted to report they were policemen's helmets and carried a profuse display of flags.

The copy of the Armistice order on the front page of the "Star" was as follows:

Marshal Foch to Commanders-in-Chief: Hostilities will cease on the Western Front as from Nov. 11 at 11 o'clock, French time. The Allied troops will not, until a further order, go beyond the line reached on that date and that hour. (Signed) Marshal Foch.

The announcement was made at 10:20 a.m. in London the morning the Armistice was signed. How vividly it is remembered throughout the world, for never had news been more eagerly awaited or wildly acclaimed as that flash around the world announcing the Great War was ended. With the rejoicing was blended sympathy for those families sorely bereaved, whose was not the joy to see their loved ones return.

Some of those who were on the Western Front when the war ended recall their experiences. Peter Smith was at Laval, in the Maubeuge sector, with the Royal Engineers, and the first intimation his company received of the war being over was from an old French woman, whom they could hardly understand, but who made it clear that the war was over.

Tom Holstead, of The Journal office, was with the Canadian 51st Battalion, on the outskirts of Mons. At 8 o'clock that morning, not knowing of the signing of the Armistice, not knowing of the signing of the Armistice, they marched off to take up position beyond Mons. As the Canadian division marched into Mons, with bands playing, the German troops left, some reluctantly, who were bidding lingering farewells after a protracted stay.

Arthur Graham was with the Canadians, and states they thought someone was putting one over when the order came to the signallers to

forward the order to the front line announcing the cessation of hostilities.

## Dental Services to Northern Outposts

Designed for use in Northern Ontario and constructed at the Angus Shops of the Canadian Pacific Railway and remodelled and equipped at the expense of the Rosedale Chapter of the Imperial Order Daughters of the Empire, this railway dental car will be maintained by the Ontario Department of Health and will have running rights over all lines in Northern Ontario. The car was handed over by the railway at the North Toronto station recently to the representative gathering including Hon. G. S. Henry, Premier of Ontario; Hon. Dr. J. M. Robb, Minister of Health; Dr. W. J. Bell, deputy Minister of Health; Dr. F. J. Conboy, director of dental services for the Ontario Health department; and delegates from the 65 chapters of the I.O.D.E. in Toronto.

The car is complete in every way as a dental consulting office, fully equipped, with dentist and nurse attached, having their own quarters, with waiting room, dental chair and all accessories as in the most modern dental consulting rooms. Electric light, hot and cold running water, electric accessories are all contained in the car which will furnish dental service to children and adults throughout Northern Ontario.

## Contributed Huge Sum To Assist Employment

C.P.R. Spent more than \$11,000,000 on new Branch Lines and station buildings and provided 351,000 days work for men otherwise unemployed. Co-operated by doing work years ahead.

Since the commencement of the existing economic situation the Canadian Pacific Railway has spent a matter of eleven to twelve million dollars in providing work for unemployed Canadians. When it was apparent in the late summer of 1930, that certain areas of southern Saskatchewan were to suffer from almost complete crop failure, the Company took upon itself to assist the people in that territory by beginning the construction of a branch line between Van guard and May-ronne. This line would not, in the ordinary course of business, have been built for the Government, but the Government had given 351,000 days work to individuals otherwise unemployed up to August 31st last, and at September 14th it was estimated that approximately 100,000 more working days would be furnished before the work was completed.

Mr. E. W. Beatty, Chairman and President of the Canadian Pacific Railway, desired to give employment to the farmers and their teams in the drought area. The total cost of the line is estimated to be approximately \$1,000,000, and this work is still proceeding.

The Dominion Government subsequently undertook considerable work for the unemployment relief, and the Canadian Pacific was called upon to cooperate. This the Company did to the limit of its ability by anticipating works which would, normally, not have been started for a number of years. These works included a number of new branch lines, the building of a new station at Regina, some grade

## Here and There

Growing of glassing for the Chinese at the end of the slope at Waterloo, Ont., has been valued at \$370,000.

Fine, unusually warm, weather has favored threshing operations in the north west of Canada during October and has put the trade of wheat substantially according to the crop report of the Canadian Pacific's Agricultural Department.

Evaporators in the Annapolis Valley are now working full time and are consuming quantities of low grade steam. Markets for the evaporated product are being found in Montreal and Toronto with an occasional car for the Canadian West.

The canoe continues to be popular. A recent official report shows that in the last five years in Canada building of canoes has increased by over 35 per cent. in the number of establishments making them and by 85 per cent. in the value of the output.

Canary Korndyke Alcala is dead. This was the world-famous Holstein cow which in 1928 created a world record of approximately 1,000 pounds of butterfat in 306 days. She was later purchased by the Saskatchewan Government for \$10,000 for breeding purposes.

Due to fall of the Canadian dollar and rise in the French franc, there will be no reduction in the price of wines to Canadians this winter, according to L. B. Corbett, Chairman of the Quebec Liquor Commission, interviewed about Canadian Pacific Express of Britain on his return recently from a tour of Europe.

Visiting Canada for the purpose of studying all phases of the grocery trade, a party of British grocer apprentices are making a tour of the leading centres of Eastern Canada which includes Montreal, Ottawa, Toronto, Hamilton, London, Guelph, Welland and Niagara, traversing the Canadian Pacific lines. They will return to England on S.S. Montclair.

## Doubling a Retail Business in Five Years

An Advertisement Addressed to

To double a retail business in five years, add 15 per cent to the sales of the preceding year. At the end of five years, sales will be double their present amount.

our Local Retailers

Increasing one's sales to the extent of 15 per cent per annum to sales can be accomplished in two main ways. Thus:

1. Increase the amount of each sales transaction by an average of 15 per cent. (Note: This is NOT the same as raising your prices 15 per cent. To do that would be fatal, even if possible).
2. Increase the number of customers served daily to the extent of 15 per cent.

Good salesmanship will enable a retailer to raise the level of his average sales transaction—with advantage to both his customer and himself. Thus, a well-informed buyer will readily pay 20c or 25c more for a pair of gloves or stockings or shoes, or for a piece of enamelware, if the better value of the higher-priced article is well presented.

But the better way of raising sales to the extent of 15 per cent is to increase the number of customers.

Customer-increase comes from (1) satisfactory service, (2) satisfactory goods and prices; (3) good window displays; and (4) good advertisements in this newspaper.

Men and women buyers always want to be informed, in their homes, by newspaper advertisements, about things which they plan to buy; and they are responsive to retailers' invitations. Also, they like to see the advertisements of those retailers whose customers they are.

A silent retailer can hardly hope to increase his business; and it's pretty certain he won't double it in five years.

## Here and There

Montreal with \$26,000 Toronto with \$27,582 Winnipeg with 217,587; and Vancouver with 245,207, show as the four largest cities of the Dominion on the Federal Government census returns for 1931.

Saskatchewan ranks second to Ontario as an egg-producing province with an estimated production last year of thirty million dozen eggs. Total value of poultry products to Canadian farmers in 1930 was \$30,000,000.

United States motor traffic to New Brunswick for the current season up to July 31 was 12 per cent heavier than for the corresponding period of last year, according to a tabulation just issued by the Provincial Government Bureau of Information and Tourist Travel.

What is regarded as probably the highest park in the world is the National Park on Mount Revelstoke in the Canadian Rockies, on the main line of the Canadian Pacific trans-continental system. It covers an area of 100 square miles and is above the clouds. There is a new motor road to the summit of the mountain.

Evangelina Memorial Park, Nova Scotia, with its chapel and museum dedicated to the memory of the heroine of Longfellow's poem and of the Acadian pioneers, has been visited by more than 24,000 tourists since it was opened in 1924. It is announced from Dominion Atlantic Railway headquarters.

Steady development of young Canada's interest in farming has increased to the point where a Canadian Council on Boys' and Girls Club Work has been formed to co-ordinate the junior agricultural movement as a whole. The program has been broadened to include practically every line and department of modern farming in Canada.

Harassed officials of the Canadian Pacific Express Company at Vancouver played nurse recently to a mother and her family of 14 when "Fanny," a sad-eyed retriever, carried by the company from Nelson, B.C., became the mother of 14 puppies. Hurry-up calls were put through for the consignee, a Vancouver youth, who was overjoyed to find the unexpected parcel.

When Dr. Josef Wielawski, surgeon of the S.S. Polonia, suffered an attack of appendicitis, his life was saved by the intervention of Dr. A. B. Taylor, the Canadian Club physician taken on board the Duchess. The incident occurred recently when the Duchess of Richmond was 300 miles off the coast of Ireland.

With a jammed rifle and a rearing grizzly, a few yards distant, Dr. L. B. Kinney, of Portland, Oregon, guest at the Best Springs Hotel, on a hunting expedition in the Pacific Northwest, delayed his attack on the grizzly bear. The animal delayed its attack long enough for the doctor to fire and shoot it. The hunt was a black bear, three (723)

## Here and There

Maple sugar and maple syrup produced in Canada in the spring of 1931 had an estimated value of \$2,537,700, which the former accounted for \$20,000 and the latter for \$2,517,700. The Province of Quebec is the largest producer in the Dominion.

Following a long succession of shipments in the export market commenced a year ago, thirty-five cars of beef cattle, the bulk of them for British consumption, left Winnipeg recently by special Canadian Pacific train for the Atlantic seaboard for shipment to Great Britain.

Thousands of salmon recently "took use elevator" on their way to the spawning grounds in the upper sections of the St. Lawrence River, British Columbia, when they used the fishway built by the Canadian Government Department of Fisheries to overcome the tumbling waters at Stamp Falls.

With the departure on October 1 of the big Sikorsky amphibian plane for Boston, the Pan-American Airways concluded their service between Boston and Halifax which was inaugurated August 1. In August, 70 passengers were carried on the southbound trips and 67 northbound in 18 flying days.

Manitoba's threshing was practically complete for 1931 in the first week of October, according to the weekly crop statement of the Canadian Pacific Railway department of agriculture. Saskatchewan was then 61 per cent, threshed and Alberta 55 per cent, with northern areas in each province still holding heavy crops ripening for the machines.

His Excellency the Earl of Bessborough, Governor-General of Canada, together with his eldest son, Viscount Duncannon, have in view hunting and fishing trips in New Brunswick next year. During his recent visit to the province, His Excellency was presented with a complimentary hunting and fishing license by Hon. C. D. Richards, Premier of New Brunswick.

Completion of organization work of the Dominion Agricultural Credit Company was announced recently by E. W. Beatty, chairman and president of the Canadian Pacific Railway, who stated that "subscription to over sixty per cent of the capital stock of the company have been received and the requisite steps to complete the organization have been taken." Headquarters of the company will be in Regina.

The new dental car, built by the Canadian Pacific Railway and equipped by the Rosedale, Toronto, Chapter of the I.O.D.E., was turned over to a representative in Northern Ontario to the Ontario Government recently. This car, claimed to be unique on the continent, will have running rights over all railway lines in Northern Ontario and is equipped with fully modern dental facilities, waiting room, living accommodation, laboratory, consulting room, clinic and dental chair.

## WORLD HAPPENINGS BRIEFLY TOLD

Argentina has decided to adhere to the one year naval holiday.

Canada is sending a consignment of relief material for hurricane stricken Honduras.

Premier Brownlee, replying to a report from Ottawa, says no unauthorized work has been done in Alberta under the relief scheme.

The Federal Reserve Bank of New York, on October 31, reported receipt of a consignment of gold from Canada amounting to \$1,000,000.

A petrifed section of an ichthyosaurus from Hudson's Hope has been placed in the hands of the provincial museum of British Columbia.

Two raccoons and two black bear cubs will be sent to Australia as a gesture of courtesy for the two kangaroos sent to Toronto.

Advent of daylight saving time next year to Vancouver suffered a setback when the city council refused to submit a plebiscite on it at the December elections.

A large majority of the members of the International Peace Garden Commission favored the Turtle Mountain site for the garden, said J. H. Moore, secretary of the commission.

H. G. Wells, noted British author and historian, visiting Boston, predicted increased efficiency in industry would result in increasing unemployment.

The marked upward trend in Canadian business was noted in the value of retail sales during September, issued in a report by the Dominion Bureau of Statistics.

Only 1,000 Canadians received immigration visas for admission into the United States during September as compared with 6,151 in the corresponding month of 1928.

Orders have been received from China for 50 head of registered Ayrshire cows for the Hong Kong Dairy and Cold Storage Company.

The order will be filled from herds in British Columbia.

A Tennessee man who died at 91 had never been farther away from home than 11 miles, had never seen a train, motor car, or electric lights. No runs, no hits, no errors.

Paint is something used to improve the looks of buildings and spoil those of the girls.

## SOUR STOMACH

"Just a tasteless dose of Phillips' Milk of Magnesia in water. That is all it takes to get rid of heartburn, indigestion, acid stomach, sourness, and all the other troubles that come from a sour stomach. It is the right way to kill all the excess acid. The stomach becomes sweet, the pain departs. You are happy again in five minutes."

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure you get the genuine. The ideal desiccant for clean teeth and healthy gums is Phillips' Dental Magnesia, a superior tooth-paste that safeguards against acid-mouth. (Made in Canada.)

W. N. U. 1915

## New National Viewpoint

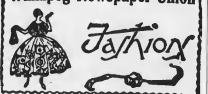

Canadian Writers of Fiction Should Portray Scenes Of Our Own Country

Some sound advice was given to Canadian authors recently by John Burroughs, the well known English essayist. While he finds our literature of a surprisingly high average, he deprecates the lack of Canadian locales. He thinks the Canadian writer allows himself to be distracted by London and New York, to the detriment of his own country, when it comes to backgrounds and settings for stories, and that it would be better to portray the Canadian scene and situations.

There is no doubt whatever that Mr. Burroughs has put his hand upon a real need. There are very few novels about Canada and the people of Canada—novels that would convey to people outside Canada a clear idea of the Dominion, its inhabitants, their ideals, their methods, their mentality. Yet that is the sort of novel we need if our fiction is to become national in anything more than the publisher's imprint.

Mr. Burroughs sees a new national viewpoint and new standards of judgment needed for the young writers of this country. Doubtless both will come in time, but the present tendency is rather away from Canada and the national viewpoint than towards such an ideal. Our poets get much nearer to it than our writers of prose. The lure of the cheap magazine with its false standards of life has proved too strong for a good many Canadian writers, who might have done a good service to Canadian literature had they been able to withstand that lure. Criticism, such as Mr. Burroughs has offered, is, therefore, all the more to be noted as pungent and appropriate.

—Montreal Star.

## The Antidote For Fear

Courage, Confidence and Hope Needed By World Today

The curse of humanity has always been fear.

Fear dates back to the beginning of man.

Fear is the mother of hatred, the instigator of murder, the begetter of wars.

Fear is the enemy of sanity, the spoiler of judgment, the defiler of the soul.

Fear turns day into night and makes men walk in darkness.

Fear is the forerunner of distress, the foe to prosperity, the preserver of poverty.

Fear is the failure of the spirit, the triumph of the primitive over the civilized, the victory of death over life.

As individuals and as a nation we should cast fear from us.

Courage, confidence, hope—these are the antidotes—and the world has great need of them today. Fear is the thing that halts progress and creates difficulty, makes people hesitate where courage would see them through.

Tender-handed stroke a nettle, And it stings you for your pains; Grasp it like a man of mettle— And as soft as silk remains.

—London Daily Express.

## Canadian Fruit and Honey Given Awards

Excellent Record Was Made At Imperial Fruit Show

Canadian apples and honey made an excellent record at the Imperial Fruit Show, which opened in Manchester, England, October 30.

Word was received by the Hon. Robert Weir, Minister of Agriculture, that in the class open to the British Empire, British Columbia won two second awards, one for dessert and one for other for culinary apples. The entries included fruit grown in England as well as in Australia, New Zealand and South Africa.

The southern Dominions' fruit had been scored in London early in June.

In the section open to Canadian-grown fruit, British Columbia and Nova Scotia divided honors.

The agent-general's cup for the exhibition gaining the highest number of points was won by Jas. Lowe, of Oyma, B.C.

For the first time in the history of the Imperial Fruit Show honey was included. In the three sections open to the Dominions and Colonies, Ontario exhibitors won two first awards, while exhibitors from British Columbia won one first, two seconds, and three third awards.

Male Fresh Start Homes for the aged men are still maintained, but not so for aged women. They say when a woman begins to grow old these days she bobs her hair, shortens her skirt and starts all over again.

An engineer in Scotland has invented a new lubricant, which gives warning of the danger of overheating bearings by emitting a specific odor.

An Ancient Cemetery Discovery of a cemetery more than 4,000 years old and containing probably the earliest archaeological treasures ever found in Persia was announced by Horace H. F. Jayne, director of the University of Pennsylvania Museum. The find was made at Tepe Hissar, near Damghan.

In Ancient Galilee The University of Michigan Institute of Archaeological Research has announced that an expedition directed by Prof. Leroy Waterman, has discovered remains of what probably was an early Christian Church at Sephoris, ancient capital of Galilee.

No Longer Bilious—Thanks Vegetable Pills

"I suffered with Biliousness for days at a time. Every medicine I tried failed to bring relief... the first dose of your wonderful Carter's Little Liver Pills gave me great relief."—Mrs. C. Leigh.

Dr. Carter's Little Liver Pills are no ordinary laxative. They are ALL NUTRITIVE and have a very delicate, valuable tonic action upon the liver. They end constipation, indigestion, acidity, headache, poor complexion, All druggists. 25c & 50c per box.

## Disagrees With Einstein

Retreating Stars Determine Size Of Universe Opinion Of Dutch Astrologer

The stars, constantly retreating toward the invisible rim of the Milky Way, are the factors that determine the size of the universe, says Professor Willem de Sitter, noted Dutch astrologer. He spoke on "the size of the universe" in the Frick Chemical Laboratory of Princeton, New Jersey, University.

The universe is of a definite size and it is finite, Dr. de Sitter declared, but it is continually expanding, because of the retreat of the stars which broadens the limits of the universe.

Dr. de Sitter's exposition is at variance with the theory of Albert Einstein, the German mathematician. Einstein's static theory has the universe standing at a certain size and according to him as an indefinite. After an initial postulate that the whole of space was first filled homogeneously with a certain amount of matter, but with no motion.

To this hypothesis Dr. de Sitter compared his own theory of a finite original universe having no matter only motion. Its size has constantly increased, the professor said, but it still remains finite—or limitable.

## Attacks Current War Stories

Canadian Soldiers Not Moral Weaklings Says Lieut.-Col. George A. Drew

Lieut.-Col. George A. Drew, who has on former occasions leaped into the centre of the stage as the defender of Canadians in the Great War, assumes his familiar role again.

Soldiers, he declares, are not such moral weaklings as they are pictured in current war stories. There is no doubt that Col. Drew speaks truly, and also that his indignation over the tone of some modern works of literature is justified.

Too many writers in their urge for "realism," have laid entirely too much stress on happenings which, though probably genuine, do not truly reflect the life of the soldier in any comprehensive way.

They have shown only one side of the picture, and in doing so have been guilty of a great injustice. Many of the books will not make pleasant reading for the children and grandchildren of the men who fought, the descendants who have an indelible right to a righteous and glorious pride in the achievements of their forbears.

## THE RHYMING OPTIMIST

By Aline Michaels

### THE FLAME

As a man may kindle a flame that glows On a hearth in a cold, bare room Till its dancing light, all color of rose, Fills the place with its warmth and glow.

He has lighted a spark in many lives With the touch of his spirit's fire, He has kindled the dream that through all survives, He has quickened the high desire.

As a blaze with its glamour of ruddy light Transfigures a room once bleak, So the flame of his courage, clear and bright, Brings the power the timorous seek.

He has brought into lives that were drear and cold, Into doubting hearts of youth, A gift which has solace for young and old, The flicker of living truth!

## The Lovely Waskeisu

New Waltz and Song Enjoying a Vogue In The West

Extolling the beauties of Waskeisu Lake, the national playground in Northern Saskatchewan, Mr. J. S. Brundige of Regina, has published a song entitled "The Lovely Waskeisu."

A very delightful musical setting has been arranged by Margaret Lindsay, also of Regina, and the song has been dedicated To those who have loved and fished in the Canadian Northland. Words of the song are as follows:

I've wandered over eastern hills, I've trod the western plain, And revelled in the beauty of the waving golden grain, But nature holds a nobler gem the lovely Waskeisu.

O'er hill and dale and winding trail I'm coming back to you, Thy face reflects the setting sun in many shaded hues,

The woodland marks thy limits with a frame of softest green; Thy waters crown a lullaby, sort as a water song.

That soothes to rest the weary mind, while childhood memories thrum, The flowers deck thy verdant banks, And every whispering loon, And shed a benediction in the silvery moonlight glow.

The northland calls her children home O'er hill and dale and winding trail I'm coming back to you.

## SUNDAY SCHOOL LESSON

NOVEMBER 15 PAUL IN JERUSALEM

Golden Text: "Thou shalt be a witness for Him unto all men of what thou hast seen and heard."—Acts 22: 15.

Lesson: Acts 21:17 to 23:30. Devotional Reading: 2 Corinthians 4:7-15.

## Explanations and Comments

Paul's Reception At Jerusalem, verses 17-19.—The leaders of the Church at Jerusalem received Paul cordially, James was in the company that greeted him, but Peter seems not to have been present.

Paul came to them with a wonderful story of how the gospel message had been received among the Grecian Jews and Gentiles, and with abundant proof of their regard for the Mother Church in the collection which they had contributed out of their deep poverty.

It is evident that Paul had thought this gathering of contributions from his Gentile churches to be "the crowning act" as Professor Ramsey declares, of his work in the four Gentile provinces of Galatia, Asia, Macedonia, and Achaia. Yet there is no mention of any expression of gratitude on the part of the receivers.

Omission is pathetic to one who has followed with intense interest Paul's course and aim.

Apparently the apostles and elders of Jerusalem passed at once to what was uppermost in their own minds. The theological and theoretical over-omission is pathetic to one who has followed with intense interest Paul's course and aim.

## Canada Well Governed

With Ten Million Population Has 199 More Members Than Britain

In the British House there are 615 members, and the strange thing is that in the House itself there is but one member more than 400.

Britain has the one central government; there is nothing which compares to our provincial system of rule, and although 615 appears to be a fairly formidable number of parliamentarians it is not so great as the number which we have in Canada.

Counting the Federal and Provincial bodies in Canada we find this result:

Ottawa ..... 245  
Alberta ..... 63  
British Columbia ..... 58  
Manitoba ..... 55  
New Brunswick ..... 48  
Nova Scotia ..... 112  
Ontario ..... 47  
Prince Edward Island ..... 20  
Quebec ..... 109  
Saskatchewan ..... 63

Total ..... 814

So Canada with its ten million population has 199 more governing members than Britain with its population of 47,000,000.

## How To Forecast Weather

Missouri Prophet Says It Always Runs in Cycles

Buffalo's mystery man baseball prophet has a rival at Macon, Missouri, in a farmer, unknown to fame, who says this business of weather forecasting is a simple matter if you keep tab of the first ten days of each three-month cycle.

He submitted his scheme, with a challenge, to W. C. Brown, chief of the weather bureau there. He suggested that Brown junk his rain gauges and barometers and adopt his system.

Weather during the first ten days of each three months cycle indicates what will happen during those months, he contends. His cycles begin in January, April, July and October.

Czechoslovakia has started this year public works which will cost nearly \$150,000,000.

Motorists pay \$150,000,000 a year in gasoline taxes.

### THE HOUSE OF DREAMS-COME-TRUE

— BY —  
**MARGARET FIEDLER**  
Author of  
"The Splendid Polly," "The Hermit  
Of Far Road,"  
Hodder & Stoughton, Ltd., London.

#### CHAPTER V.—Continued.

"Thank God," she heard him mutter. Then, aloud, reassuringly: "I've got my end of it all right. Now, can you catch hold of the strap and raise yourself a little so that I can reach you?"

Jean obeyed. A minute later she felt his arms about her shoulders, underneath her armpits, and then very slowly, but with a sure strength that took from her all sense of fear, he drew her safely up beside him to the high ground.

For a moment they both rested quietly, recovering their breath. The Englishman seemed glad of the respite, and Jean noticed with concern the drawn look of his face. She thought he must be more played out than he cared to acknowledge.

Across the silence of sheer fatigue their eyes met—Jean's filled with a wistful solicitude as unconscious and candid as a child's, the man's curiously brilliant and inscrutable—and in a moment the silence had become something other, different, charged with emotional significance, the revealing silence which falls suddenly between a man and woman.

At last:  
"This is what comes of stealing a day from Mrs. Grundy," commented the man dryly.

And the tension was broken.

He sprang up, as though anxious to maintain the recovered atmosphere of the commonplace.

"Come! Having shot her bolt and tried ineffectually to drown you in a ditch, I expect the old lady will let us get home safely now. We're through the worst. There are no more drifts between here and the hotel."

It was true. Anything that might have spelt danger was past, and it only remained to follow the beaten track up to the hotel, though even so, with the wind and snow diving in their faces, it took them a good half-hour to accomplish the task.

Monsieur and Madame de Varigny, a distracted, "maître d'hôtel," and a little crowd of interested and sympathetic visitors welcomed their arrival.

"Mon dieu, mademoiselle! But we rejoice to see you back!" exclaimed Madame de Varigny. "We ourselves are only newly returned—and that, with difficulty, through this terrible storm—and we arrive to find that none knows where you are!"

"Me, I made sure that mademoiselle had accompanied Madame la Comtesse," asserted Monsieur Vautrin, nervously anxious to exculpate himself from any charge of carelessness.

"We were just going to organize a search-party," added the little Count. "I, myself—stoutly—should have joined in the search."

Wary as she was, Jean could hardly refrain from smiling at the idea of the diminutive Count in the role of gallant preserver. He would have been considerably less well-qualified even than herself to cope with the drifting snow through which the sheer, dogged strength of the Englishman had brought her safely.

Instinctively she turned with the intention of effecting an introduction between the latter and the Varignys, only to find that he had disappeared. He had taken the opportunity presented by the firm footing of excitement which had greeted her safe return to slip away.

She felt oddly disconcerted. And yet, she reflected, it was so like him—so like the conception of him which she had formed, at least—to evade both her thanks and the enthusiasm with which a recital of the after-

noon's adventure would have been received.

#### CHAPTER VI.

##### The Magic Moment

Jean, surprisingly revived by a hot bath and a hot drink, and comfortably tucked up beside the fire in her room, was recounting the day's adventure to Madame de Varigny.

It was a somewhat expurgated version of the affair that she outlined—thoughtfully calculated to allay the natural apprehensions of a temporary chaperon—in which the unknown Englishman figured so innocently as merely having come to her assistance in the course of her afternoon's tramp, she had been overtaken by the blizzard. Of the stolen day, snatched under Mrs. Grundy's enquiring nose, Jean preserved a discreet silence.

"I don't know who he could be," she pursued. "I've never seen him on the ice before; I should certainly have recognized him if I had. He was a lean, brown man, very English-looking—that sort of cold-tub-every-morning effect, you know. Oh! And he had one perfectly white lock of hair that was distinctly attractive. I called—descriptively—'as though someone had dabbed a powdered finger on his hair—just in the right place.'"

Madame de Varigny's eyes narrowed, and a quick ejaculation escaped her, as she was something more than a mere explanation concerning interest; it held a definitely individual note, as though it sprang from some sudden access of personal feeling.

Jean, hearing it, looked up in some surprise, and the other, meeting her questioning glance, rushed hastily into speech.

"A lock of white hair? But how chic! It should not—thoughtfully—be difficult to discover the identity of a man with so distinctive a characteristic."

"He is not staying in the hotel, at all events," said Jean. "He told me he was at a friend's chateau."

"And he did not enlighten you as to his name?" asked the Countess.

Madame de Varigny spoke with an assumption of indifference in her liquid voice.

Jean shook her head, smiling a little to herself. It had been part of the charm of that brief companionship that neither of the two conversed knew any of the everyday, commonplace details concerning age—other.

"Perhaps you will see him again at the rink tomorrow," suggested Madame de Varigny, still with that note of restrained eagerness in her tones. "The snow is not deep except where it has drifted; they will clear the ice in the morning."

Jean was silent. She was not altogether sure that she wanted to see him again. As it stood, robbed of all commonplace circumstances of convention, the incident held a certain glamour of whimsical romance which could not but appeal to the daughter of Glyn Peterson. Nicely rounded off as for instance, by the unknown Englishman's prosaically calling at the hotel the next day to enquire whether she had suffered any ill effects, it would lose all the thrill of adventure. It was the suggestion of incompleteness which flavored the entire episode so piquantly.

No, on the whole, Jean rather hoped that she would not meet the Englishman again—at least, not yet. Some day, perhaps, it might be rather nice if chance brought him together once more. There would be a certain element of romantic fitness about it, should that happen.

"I don't think I am likely to see him again," she said quietly, replying to Madame de Varigny's suggestion. "He told me he was going away tomorrow."

Had it been conceivable, Jean would have said that a flash of disappointment crossed the Countess's face. But there seemed no possible reason why the movements of an unknown Englishman should cause her any excitement of feeling whatever, pleasant or

otherwise. The only feasible explanation was that odd little streak of inquisitiveness concerning other people's affairs which appeared to be characteristic of her and which she had before evinced concerning the circumstances of Lady Anne Brennan.

Whatever curiosity she may have felt, however, on this occasion Madame de Varigny refrained from giving expression to it. Apparently dismissing the subject of the Englishman's identity from her mind, she switched the conversation into a fresh channel.

"It is unfortunate that you should have met with such a contretemps today. You will not feel disposed to dance this evening, after so much fatigue," she observed commiseratingly.

But Jean scouted the notion. With the incomparable reactivity of youth, she felt quite equal to dancing all night if needs be.

"Mais tout au contraire!" she exclaimed. "I'm practically recovered—at least, I shall be after another half-hour's lazing by this glorious fire. I wonder what heaven-sent inspiration induced Monsieur Vautrin to install a real English fire-place in this room? It's delicious!"

The Countess rose, shrugging her expressive shoulders.

(To Be Continued.)

#### Recipes For This Week

(By Betty Barclay)

##### GRAPE-JELLY ROLL

(4 eggs)

- ¾ cup special cake flour, sifted.
- ½ teaspoon baking powder.
- ¼ teaspoon salt.
- 4 eggs, unbeaten.
- ½ cup sugar.
- 1 teaspoon vanilla.

Grate jelly.

Sift flour once; measure. Combine baking powder, salt, and eggs in bowl. Place over smaller bowl of hot water, and beat with rotary egg beater, adding sugar gradually, until mixture becomes thick and light-colored. Remove bowl from over hot water. Fold in flour and vanilla. Pour into pan, 13½ x 8½ inches, lined with greased paper. Bake in hot oven (400 degrees Fahrenheit) 13 minutes. Turn from pan at once onto cloth-covered powdered sugar. Remove paper. Quickly cut off crisp edges of cake. Spread with jelly and roll. Wrap in cloth until cool.

##### CRANBERRY DESSERT

- 1 junket tablet.
- 1 tablespoon cold water.
- 1 cup cranberry jelly or marmalade.
- 1 pint milk.
- 3 tablespoons sugar.
- ½ teaspoon vanilla.

Prepare the junket according to directions on package. Pour at once into individual dessert glasses and let stand undisturbed in a warm room until firm—about 10 minutes. Then chill. When ready to serve add cranberry jelly or marmalade to each dish. A topping of sweetened whipped cream may be put over the cranberries if desired.

#### Economic Conference Likely

Governments Would No Doubt Accept Invitation For Next Year

The London Times says that when Prime Minister R. B. Bennett of Canada formally renews his invitation to the annual meeting of the Imperial Economic Conference at Ottawa next year, the National Government will certainly accept it. The suggestion is made, the Times added, that the meeting should not be held too early in the year, in order that all the governments of the Empire might have ample time to make their preparations.

Millions For Dumb Animals  
Dumb animals have come into millions. The money, which will be used for their protection, was furnished by Mrs. Marion E. McConnell, 74, of Chicago who never had a pet of her own during her life. It was estimated that the estate was worth \$3,000,000 and that each of the society's would receive about \$1,000,000.

#### Stand By Old Adage

Dr. Carl E. Black, of Jacksonville, Ill., offered the College of Surgeons a plan for grading surgeons according to the death rate among their patients. There is an old saying that doctors bury their mistakes, while lawyers hang theirs. It is a fair guess that the surgeons will stand by the old adage.

First henpeck—"Don't tell my wife I let you borrow a dollar."  
Second says—"I won't if you don't tell my wife I had a dollar."

Life's saddest infidel is the man who believes not in himself.

W. N. U. 1915

#### Stormy Political Life

Ramsay MacDonald Has Had a Career Reading Like Fiction

Ramsay MacDonald was elected in his own constituency, because the Prime Minister's "Ain folk" stood by him in the stormy hour of his stormy political career.

Born in a fisherman's cottage in Scotland, 64 years ago, Ramsay MacDonald has had a career reading like fiction. He went to London and for 10 years drank the bitter waters of poverty, following a literary life. The death of his wife in 1911 was the saddest blow of his life.

Entering Parliament in 1906, Ramsay MacDonald became chairman of the Independent Labor Party. This was in the days when such a step was tantamount to social, if not political exclusion. When the war opened he assailed the Government for having blundered into the conflict. Urging peace by negotiation, and despite his support for recruiting, MacDonald became an out-an-out pacifist and was shunned by all lines of war thought. He lost his seat in the Commons in 1918.

The turn of the political wheel brought MacDonald back to Parliament after the close of the war as head of the growing Labor Party. His pacifism was forgotten, if not forgiven. The wheel took another turn and Ramsay MacDonald became Premier in January, 1924. After ten months of office, came opposition, until June, 1929, when he formed another government.

This lasted until last August, when MacDonald, Philip Snowden, James Thomas and ten other Laborites joined the Conservatives and a portion of the Liberal Party in forming the National Government. The people of Seaham placed their stamp of approval on the latest, if not the most sensational step ever taken by Ramsay MacDonald.

An Oil That Is Priced Everywhere.  
Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

#### Stream Flow Conditions On Prairies

During the month of August, the Dominion Water Power and Hydrographic Bureau, Department of the Interior, reports that stream flow conditions in southern Alberta and Saskatchewan continued to be extremely low. In the northern sections of Alberta much better conditions were experienced, the flow of the Peace River being slightly above the long term average for the month.

Audiences in a theatre or talking picture house absorb more sound in winter than in summer, due to the increase in clothing in the colder season.

Nearly half of the total area of Denmark was planted to cereals this year.

#### A new, different

**MAGIC BAKING POWDER**

This delightful tea menu suggested by Madame R. Lacroix, assistant director at the Provincial School of Domestic Science, outstanding Montreal Cooking School, will come in very handy next time you're entertaining. Keep it for reference.

#### TEA MENU

- Fruit Cocktail
- Hot Cheese Biscuits\*
- Sauté Marguerite
- Assorted Tea Cakes
- Principles Ice Cream
- Chase & Sanborn's Tea or Coffee

Madame Lacroix says: "For my part, I always use and recommend Magic Baking Powder because it is absolutely dependable. Its high leavening power is always uniform. You get the same satisfactory results every time you use it."

Try Madame Lacroix's recipe for \*HOT CHEESE BISCUITS

#### Try Madame Lacroix's recipe for \*HOT CHEESE BISCUITS

- 1½ cups flour
- 4 teaspoons Magic Baking Powder
- 2 tablespoons butter
- ¾ cup milk
- ¾ cup grated cheese
- 1 teaspoon salt

Sift flour, baking powder and salt. With two knives, thoroughly mix flour, butter and cheese. Dilute the mixture with milk to make a soft dough. Roll quickly and lightly to one-half inch thickness and cut with a round biscuit cutter. Place on top of each biscuit a cheese cube, one-half inch thick, and bake in oven at 400° F. about 12 or 15 minutes. More than 200 interesting, tested recipes are contained in the New Free Magic Cook Book. If you bake at home, send for a copy. Write to Standard Brands Limited, Fraser Avenue, Toronto.

**When a Laxative Gripes**  
**--- BEWARE!**

Severe abdominal pains, griping, after taking a laxative is an indication of unnatural strain that may cause serious injury. No laxative that causes such discomfort is safe, or necessary. ENO'S is pleasant, gentle, safe and sure.

A daily dash of ENO'S "Fruit Salt" in a glass of water, night or morning, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

**ENO'S FRUIT SALT**

#### The Value Of Laughter

Grand Aid To Health and Longevity Says New York Pastor

Instead of telling us the mode of living, not usually applied with success to any other individual, by which he has attained to the age of 96 years, Dr. George Alexander, pastor of the First Presbyterian Church of New York, says that when one is old he should "eat half as much, sleep twice as much, drink three times as much water and laugh four times as much."

This forward-looking wisdom, particularly happy, when it comes from past the allotted three-score and ten, is supremely leavened by the last admonition. Much has been written of laughter. Some hold that it is the mark of the ill-mannered fool. Some count laughter the desperate alternative of tears. Yet others agree with Carlyle, though he often was, when he says in Sartor Resartus that "The man who cannot laugh is not only fit for treasons, stratagems and spoils, but his whole life is already a treason and a stratagem." One should begin early in the journey to laugh, lest in his old age, even with laughter multiplied by four, he lacks a good proportion of mirth.

#### International Finance

No nation can live to itself in the financial sense. As someone has said, the countries of the world are roped together like Alpine climbers; if one falls over the precipice the strain falls on the others. Mark, franc, dollar, pound—their fortunes are intertwined.—Daily Herald, London, England.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Extremator.

After lifting a heavy safe through the fanlight of a baker's shop in Covent Garden, England, and opening it in a field several miles away, thieves found only \$15.

#### Little Helps For This Week

And their works do follow them."—Revelations xiv. 13.

Nay, rather act the part unnamed, unknown.

And let Fame blow her trumpet through the world With noisy wind to swell a fool's renown. Joined with some truth he stumbled blindly o'er.

Or coupled with some single, shining deed That in the great account of all his days Will stand alone upon the bankrupt sheet.

His pitying angel shows the clerk of heaven. The noblest service comes from nameless hands. And the best servant does his work unseen.

—Oliver Wendell Holmes.

Is it only those who are great, or those only who are splendidly good, whose works do follow them? God forbid. Are there not, as He Himself has told us, such little things as the widow's mite and the cup of cold water given for His sake? There is a greatness in unknown names, there is an immortality of quiet deeds attainable by the meanness of mankind.

—Frederic William Farrar.

To safeguard the child from damage that worms cause, use Miller's Worm Powders, the most-easy par excellence for children. These powders will clear the system entirely of worms, and will encourage healthful operation of the digestive processes. As a vermifuge, it can be relied on for its effectiveness.

Charlotte—It must be three years since I saw you last. I hardly knew you, you have aged so.

Clara—Well, I wouldn't have known you, either, except for that hat.

The funniest girl is she who marries with the idea that after marriage women do not have to work or worry.

#### Her Heart Was So Bad Couldn't Do Housework

Mrs. S. Dracoman, R.R. 2, Midland, Ont., writes:—"I had been troubled with heart trouble for many years."

My heart would beat so fast I could hardly breathe, and I had headaches, and dizzy and fainting spells. I couldn't get my housework done I was so weak. I took three boxes of Milburn's Heart and Nerve Pills and felt much better, and now I would not be without them in the house."

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

## Memorial Plaque Unveiled

(Continued from Page One)

The memorial plaque is a fine piece of craftsmanship in heavy bronze, and it is proposed to have it suitably mounted at the town hall in the little garden spot. A stone cairn or other suitable base will be built, and possibly a low wall around the plot, which has been suggested.

Western Canada Coal Review carries some special articles on the Saskatchewan lignite field and indicates that an aggressive drive is being made to extend the market for lignite as domestic fuel

## IN MEMORIAM

In Loving Memory of Dulcie Richards who died November 15, 1930. She had a way you could not help loving. And a heart that is purer than gold, And to us who all knew and loved her, Her memory will never grow cold.  
—Inserted by her sister Olive.

In Loving Memory of Dulcie Richards who died November 15, 1930. God picked from His garden of flowers, One we did love and adore, And silently we pray, oh dear father, For this loved one just gone before.  
—Inserted by her Mother, Father and Brother.

In Loving Memory of Dulcie Richards who died Nov. 15, 1930. Loving and kind in all her ways, Upright and just to the end of her days, Sincere and true in her heart and mind, Beautiful memories she has left behind.  
—Inserted by Mr. and Mrs. L. Richards and family.

## IN MEMORIAM

In Loving Memory of Dulcie Richards who died on November 15, 1930. Inserted in affectionate remembrance by Mr. and Mrs. W. H. Garner and Family.

An unique broadcasting program under remote control on a short wave length was missed by many local people last week. It was the "Mental Infirmities Hour" program, from Cowley, and the artists were Col. R. F. Barnes, Maurice W. Cooke, Albert F. Short and Sidney Short, with Arthur E. Graham as producer and announcer. Andy Jackson was the mechanic in charge of the station. Only two broadcasts—the first and the last—have been given from this station, known as BLAB.

## Junior Hockey Club Preparing for Action

Robert Bell Elected President and C. Clarke Secretary—Angelo Gentile Is Manager

A meeting of junior hockey enthusiasts was held on Nov. 2, presided over by A. J. Bowling, at which 20 were present. Officers appointed were R. Bell, president; A. J. Bowling, vice president; C. Clarke, secretary-treasurer; Angelo Gentile, W. Wright, committee; P. Oliva and J. Atkinson, trainers; W. Wright, coach.

The offer of the youths' section of the United Mine Workers was discussed, and Messrs. Gentile, Bowling, Clarke and Wright will interview them in regard to financing, gate receipts and conditions regarding their proposal.

A Gentile took the names of those who wished to try for a place on the team. The team will play with the Seniors in exhibition games, and enter the Junior play offs.

Discussion took place as to the fixing up of a room for the players at the rink. A Gentile, manager, will be given full control of the team.

## High School Students

(Continued from Page One)  
vador, Alwyn Haysom and Gilbert Hoyle was the comic bit of the evening. An unremembered part of their number was the slipping down of the nether garment, (at least one leg) of Eladio Salvador's pants, but he braved it out and accentuated the humor of the number, nearly convulsing the audience with laughter.

Grade XI. gave an interesting little play entitled "All at Sea." Audrey Dunlop was especially good, the other characters being Olinda DeCecco, Irene James, Julia Ondrus and Margaret Robert.

Grade X. gave two songs, with Kathleen Guerdar officiating at the piano in a very finished style. Those taking part were Marjorie Johnson, Chrissie McLeod, Eileen Richards, Kathleen Hoyle, Patience Fraser and Wilma Halliwell.

Grade IX. girls, Annie Gardner and Annie Karyluk gave a very interesting dialogue. The program concluded with a very fine selection by the orchestra.

Mason's orchestra played for the dance, which terminated about 1.30 a. m., bringing to a close a very enjoyable evening.

## Local News

The town hall flag is still flying.

Mr. H. Olson was a visitor here on Sunday.

Mr and Mrs J. Thomson and R. Pettigrew of Corbin, were visitors for Armistice Day.

Mrs. Herb. Sherratt, Malcolm Fraser, Mrs. F. Patterson and Grace motored to Lethbridge on Tuesday.

Miss Hilda Fairhurst, R. N., of Lethbridge, is visiting with her parents here this week.

Several items of local interest, including the Rod and Gun Club report are held over.

Mrs. T. Bowen, Earle, Maidin and Doris motored to Calgary on Friday to visit relatives.

Correction—In a letter from Jas. Lowe in Nov. 5 issue, a typographical error was made in stating men were working on the forest fire 50 hours per day. It should have been 20 hours. The typesetter picked up figure 2 instead of 5 and the proof reader missed it.

## CLASSIFIED ADVERTISING

TO RENT—Comfortable room, furnished, and board if required, for one or two gentlemen, in quiet home. Apply at Journal Office.

WANTED—To purchase, flat top office desk. Advise Journal office.

Mrs. R. F. Borden will be hostess at a tea for the Girl Guides at her home on Saturday, Nov. 14, from 3 to 6 p. m., to which the public are cordially invited.

Through the kindness of H. C. McBurney, a free show was given at the Palace theatre on Monday, each child bringing a toy for the Boy Scout toyshop.

Malcolm Fraser, formerly a student of Coleman high school, now employed in the C. N. R. office at Vancouver, is spending holidays here with Mr and Mrs. Patterson.

## MAKE THIS 3-MINUTE TEST

## IN OUR STORE OR YOUR HOME

Arrange to make this personal test of the 1932 Rogers Superheterodyne Radio today—there will be no obligation.

With volume about one-half "on," move station-finder slowly across the entire dial. Then—

1. Count the stations.
2. Notice how "sharply" each one comes in; no interference of one station with another; no "cross talk."
3. Listen to the quality of the tone, a weakness in some superheterodyne receivers.

If reception conditions are at all normal, you will be amazed at Rogers sharper selectivity; finer tone fidelity.
